

3. THE NEXT EPISODE: WWW.WORLD.PEACE/HUMANS

∞

Who could have imagined
that it would come to this
That the story would be told
with a cyberspace twist

Humans must decide
whether to live in peace
It's either Heaven or Hell
their future to be

Will there be laughter on Earth
and joy and glee
Or will there be hunger and murder
and gnashing of teeth

Will there be mayhem and wars
or simple prosperity

Will humans awake
or will they remain asleep

Will humans move on
to colonize deep space
Or will they remain preoccupied
with religions and race

The next episode is here
in time for 2012
We'll all see it together
on the World Wide Web
